Introduction

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators have a value mostly greater than 10 (11/10, 12/10, 13/10, etc). This unique rating system is a big part of the popularity of WeRateDogs.

WeRateDogs has over 4 million followers and has received international media coverage. WeRateDogs [downloaded their Twitter archive](#) and sent it to Udacity via email exclusively for this project. This archive contains basic tweet data (tweet ID, timestamp, text, etc.) for all 5000+ of their tweets as they stood on August 1, 2017.
